The Glory of the Garden

PRICE LIST

1928

MY 1928 Price List carries some changes in prices, as well as the addition of several varieties which I have thoroughly tested, and can recommend.

Last year's demand for my Special Collections was such that I am encouraged to continue them for 1928. There was especially a great demand for "The Regal Collection."

The price on "Cowee's Scarlet Wonder" has again been reduced and no garden is complete without a planting of this gorgeous scarlet.

In this price list, only strong blooming size bulbs are offered. (Once bloomed, which is the surest guarantee of "true to name.") If interested in other sizes, write me.

The careful selection of seed is one of the principal causes for increased production as well as perfection in quality, size and general improvement. This principle I proved several years ago in the selection of Golden Bantam Sweet Corn, which many of my customers remember.

I have been making further tests, especially on the lines of earliness, and now offer a yellow corn fully as sweet as the best Golden Bantam, bearing larger ears, ten, twelve, fourteen and sixteen rows of kernels, instead of eight as is usually the case with the latter. This corn is ready for use from a week to ten days earlier than Golden Bantam. Every ear is examined, from which butts and tips are removed, ensuring a much higher percentage of germination.

I have named this "Cowee's Extra Golden" Sweet Corn.

Prices below are postpaid to any part of the United States.

4 ounces, enough for 100 hills	\$.30	12 ounces, enough for 300 hills	\$.75
8 ounces, enough for 200 hills	.55	16 ounces, enough for 400 hills	.90

Orders may be sent separately or with orders for bulbs, if the latter, sufficient bulbs will be included to cover postage on seeds.

MIXED DELPHINIUM SEED. (HARDY)

I am offering a large trade packet of Hardy Delphinium seed from my private collection, at 25 cents per packet postpaid.

Fine plants, one and two years old (clumps) \$2.00 per dozen, shipment via express.

Berlin is in Rensselaer County, New York, near the boundary line between New York and Massachusetts. Especially fine highways radiate from the important cities and towns in this vicinity, permitting comfortable motoring through our section from Albany, Troy, and other eastern New York points, Pittsfield and western Massachusetts, as well as from the Berkshire summer resorts.

My friends are invited to visit Meadowvale Farms during August and early September when my Gladiolus fields are in full bloom. Visitors are always welcome and I am sure you will be amply repaid for including Berlin in your summer itinerary.

Many persons have availed themselves of the opportunity of motoring to my fields, and are now regular annual visitors.

COWEE'S SCARLET WONDER

For several years I have published many testimonials regarding "COWEE'S SCARLET WONDER," the number of which is yearly increasing as plantings increase. I am therefore discontinuing the publication of these, with the suggestion that the best testimonial is a personal trial which I recommend, feeling that you will surely be agreeably surprised and more than pleased.

For those who order one dozen or more of **Scarlet Wonder**, and who care to plant some bulblets, I will include free, fifty bulblets of the same for each and every twelve bulbs ordered, if you will mention in your order that you desire to bother with them.

If you prefer I will include ten No. 6 bulbs with every dozen ordered.

We have produced blooms seven and one half inches in diameter in our fields where we fertilize for bulb, and not flower growth, and know of blooms eight inches in diameter having been produced. The ordinary size is from five to seven inches.

This variety planted among any number of varieties in proportion of ten to the hundred, one hundred to the thousand and so on, will be the center of attraction when in bloom.

Try this "Sans Pareil" of Scarlet varieties, and if you give it proper soil conditions and care, and you are not pleased with it, you may return at harvest time with its increase, and I will gladly refund the price you paid for it. It will certainly change the center of your Garden.

PRIMULINUS HYBRIDS

This is the new race of Gladioli which has attracted the attention of flower lovers probably more than any other, on account of its exceptional artistic qualities both as to flower and spike, as well as color.

No other strain has yet been produced to equal it. The various forms of flowers and the exquisite colors are indescribable, and are in such numbers, that rather than name, for which much higher prices must be charged, I am classifying and offering in color sections of the highest quality.

JUST HOW TO ORDER

Order Early. This is important from your standpoint and mine. By so doing you insure getting just what you want, whereas late orders cannot always be properly executed, especially those received on the very edge of the planting season. At that time I may be out of certain choice varieties, perhaps the very ones you want most.

If substitutions are necessary by reason of prior sale of varieties ordered, unless otherwise advised I will make such substitutions according to my best judgment.

Bulbs for greenhouse forcing are ready for shipping in the late fall as soon as thoroughly cured.

Excepting my seventy five cent Introductory Collection, I cannot execute orders for less than one dollar.

To encourage large plantings, I shall be glad to quote special prices on quantity if I am advised of your requirements.

I shall be pleased to make selections for anyone so desiring, if advised as to colors preferred, space to cover, and amount to spend.

My mailing-size bulbs are much larger than those sent out by most growers but still larger bulbs can be sent by express, and I advise having shipments made in this way wherever possible.

Cultural directions sufficient to secure the best results will be sent with every order.

Special Discount to Seedsmen and to those ordering in lots of 5,000 or more.

Remittances Must Accompany All Orders from unknown purchasers, and may be by postoffice order, express order, New York draft, or cash by registered letter. Postage stamps accepted.

Carefully Sign Your Name, postoffice, county and state. Write clearly. Address all letters to:
